# HOW YOU CAN PROTECT ASPIRE STUDY QUALITY

## BEFORE COMPLETING RANDOMIZATION IN WEBDCU

- Confirm subject/LAR able and willing to start study drug
- If subject resides in outside facility, confirm no issues with study drug
- PCP/Cardiologist are on-board!
- Confirm *all* eligibility criteria are still met

**ONCE F102 ENTERED, SUBJECT IS RANDOMIZED AND IN STUDY!**

## BE PROACTIVE TO PREVENT PROBLEMS!

- Review Participant Info and Prohibited Med list with person responsible for meds
- Provide these materials and your contact information
- Remind them to contact you if they (1) start new med, (2) move, (3) are hospitalized
- Check-in with subject/facility early – Don't wait 3 months until 1st follow-up visit

## SUBJECT WANTS TO STOP STUDY DRUG

- Only protocol reasons to stop SD: ICH or major bleeding requiring reversal agent
- If subject wants to stop SD: Ask for reasons; Discuss concerns; PI should be involved

## SUBJECT WANTS TO STOP STUDY CONTACTS

- PI should reach out to answer concerns and confirm understanding of options
- Advise subject they can stop study drug but should remain in follow-up
- Remind subjects about potential benefits of study team contacts
- Reimbursement for time to complete follow-up contacts
- Importance to study of not losing touch with subjects
- Contacts can be less frequent if they prefer (*q6 months, annually*)
- Please contact [aspire@yale.edu](mailto:aspire@yale.edu) before submitting EOS in WebDCU

## AspireNet v2.0 - Keep up the Team-building!

We'd like to recognize the teams below that compose AspireNet. The new teams meet through May but we hope that will make connections that last much longer.
