

ASPIRE Colleagues,

We want to congratulate everyone for reaching 40% of our cohort enrolled!

This milestone was achieved despite a slight slowing of enrollment activity in the first two months of 2024 which may reflect changes in ICH admissions or other seasonal factors. We are asking all of our sites to keep up screening efforts. Please be patient and persistent and you will find an eligible patient! Remember that we are here to help, so please reach out if you have questions or encounter challenges.

If your site consented one of the 17 subjects pending a baseline visit, please do all you can to randomize and start study drug as soon as the clinical team gives the OK.

We hope you can join us this Wednesday when we will review new science from the ISC.

Thank you!

-- ASPIRE National Team

WEBINAR: Wednesday, February 28 3-4 PM ET

CONSENTS

RANDOMIZATIONS

AspireNet v.2.0 is Coming!

We are creating **new TEAMS** as we reset for the next 3 months of collaboration and friendly competition.

AspireNet is a network of Teams of 3 ASPIRE Primary Study Coordinators (PSC) who periodically meet to support and learn from each other. Monthly Talking Points are provided for your meetings.

Each team's accrual of points for ASPIRE activities (*screen failures, consents, randomizations*) will be reported monthly for the period from **March through May**.

If you are an ASPIRE PSC and want to join an AspireNet Team, please email ASPIRE@yale.edu by **Thursday Feb 29th**.

New Teams will be announced Friday March 1st.

Congratulations to our Top Sites in AspireNet 1.0!

Team	Site	PSC	Met	SFs	Consents	Rands	Points
NothingButNet	Kings County Hospital	Derrek Kang	2	38	2	1	50
	Barnes Jewish Hospital	Angela Wolford					
	Massachusetts General	Rhiana Carr					
Acquire ASPIRE	OU Medical Center	April Vaughan	4	15	3	2	35
	Cox Medical Center South	Jessica Ratcliff					
	Munson Medical Center	DeAnn Mosher					
Salty Sea Pitt	Harborview Medical Center	Brooke Haines	3	27	1	0	34
	University of Utah	Kinga Aitken					
	UPMC Presbyterian	Jason Weimer					

Data Collection Guidelines v9 -- Posted in Toolbox

Form	Clarifications and Updates
General Guidelines	Definition of source documents clarified.
Screen Failure Form	A09 Informed consent: Select 'Declined' for eligible patients who were approached and refused consent; select 'Not approached' for patients who were not eligible to participate (i.e., lacked inclusion condition or had excluded condition).
Subject Enrollment	Entering 2 subjects with same site, age, and consent date will result in error message. If subjects are different people, enter note in 'General Comments' field.
Adverse Event (F104)	Q05 Dates of Onset: No AE start date < date/time of randomization. If pre-existing condition worsens, enter date worsened as start date. When dating unclear use, time event first diagnosed or documented or clinical judgment of site investigator. Q07 Outcome: 'Resolution' defined as normalization or return to baseline of lab values, clinical signs or sx. If sx are continuing, select 'Resolved with sequelae'. Q08 Date of Resolution: Date AE resolved (i.e., date of death, hospital dx, or date subject no longer experiencing event). If residual symptoms and Q07= 'Resolved with sequelae', resolution date = date subject started to have residual sx only.
Study Drug Dispensing (F513)*	Q01 and Q03 – Date "Dispensed" changed to "Started" to reflect revised CRF.
Study Drug Usage and Adherence (F514)*	Q03 Date "Pills counted" changed to "Drug kit stopped" to reflect revised CRF. If exact date unknown, estimate full date.

***If entered data are not consistent with these changes, please update forms with accurate information, if available.**

Need Supplies?

- Study Brochures
- Wallet Alert cards
- I/E cards
- Home BP monitors
- Pill organizers
- Birthday cards
- Condolence cards
