ASPIRE SUBJECTS NOT RESIDING AT HOME

Currently, ~25% of ASPIRE participants are residing in a facility rather than at home. Communicating with these facilities is key to maintaining follow-up and preventing study medication errors.

KEY STEPS TO TAKE

Add important trial materials to patient's facility file.

Signed consent; Participant Information Sheet; ASPIRE Prohibited and Discouraged Medications; Trial Summary.

Before admission, speak with facility MD and staff .

Speak to facility MD and staff to review ASPIRE Prohibited and Discouraged Medication, describe treatment, possible AEs, and emergency procedures. Review Participant Information Sheet in detail.

Communicate regularly!

Contact facility staff regularly to confirm appropriate study drug use. Every 2 weeks is recommended early in stay.

Please review and follow cIRB-approved ASPIRE GUIDANCE ON PARTNERING WITH REHABILITATION OR SKILLED NURSING FACILITY document.
