

SISTER

ISSUE NO 8 | August 2024 | VOLUME 2

Greetings SISTER Teams!

It's been almost a year since we started interviewing and inviting our site teams to be part of our SISTER family. Summer is quickly coming to a close and Autumn will be here before we know it. Time has flown by! Thanks to all of your dedication, time, hard work, and patience in getting this pivotal study up & running.

We appreciate each and everyone of you!

So far they've earned candy for their team but bet they're aiming for the Gold pizza party!

Reminders, Updates & Tips

- ◆ eCRFs have been updated. The most up-to-date CRFs are always available in WebDCU™.
- ◆ Sites released to enroll don't initially need RAPID AI to screen & enroll. Don't let that keep you from enrolling the next SISTER patient.
- ◆ If your site is released to enroll, please screen your site's anterior ischemic strokes presenting within 23 hours of symptom onset/LKW who will not receive thrombolysis/thrombectomy. Approach the potentials and enter the screen failures into the WebDCU™ Screening Log in real-time.
- ◆ After you have randomized, look for an email from our central pharmacy team. They would like to meet with your PPh to discuss how the study drug/placebo IV preparation went.
- ◆ Make sure you are updating your assessment certificates, mRS, NIHSS, specimen shipping training, prior to expiration. If the certificates are left to expire, you will need to add a NTF to the updated certificate explaining if screening or enrollment was impacted by the expired assessment.
- ◆ Please make sure to get your readiness calls scheduled as soon as possible after you receive your cIRB approval and have executed your CTA. All sites that received their packets prior to June 2024, must be re-released to enroll by September 30, 2024.
- ◆ Please keep the study team updated on your RAPID AI progress and reach out for any assistance.
