---

**Released Sites**

Please make sure that you are entering your screen failures into the screen failure log in WebDCU within 5 days.

The SISTER study team is reviewing the screen failures weekly for any criteria that may be too restrictive.

The June Webinar video & slides are available on the SISTER website at <https://www.nihstrokenet.org/trials/sister/home>

The July Webinar falls on July 4th so will be cancelled.

We'll see you at the August Webinar on 8/1 at 4p ET.  
Reminders will be sent prior to the meeting.

---

**SISTER Site Shout Outs**

A special congrats to the following sites for completing their site readiness calls:

Harborview Medical Center  
Grady Memorial Hospital  
Wake Forest Baptist Medical Center

Congratulations to the following site for receiving cIRB approval:

Massachusetts General

Congratulations to the following site for executing their CTA:

Medical University of South Carolina  
University Hospital

---

**SISTER Site Race to Activation**

**Imaging**

It is expected that all head and neck imaging performed within 72 hours from stroke onset or LKW.

**eCRFs**

F288. Concomitant Medication Log must be completed as soon as possible after randomization and updated at every visit thereafter.

**Site Tools**

There are numerous tools in the WebDCU toolbox for your use. As the SISTER enrollments are few and far between, these tools are there to make it easier to complete the required study tasks.

## SISTER is on X

If you haven't already, **follow us on X**  
**@SISTERtrial**

We are using the platform for announcements, shout-outs, and a space to "gather" virtually.
