

SISTER

ISSUE NO 9 | September 2024 | VOLUME 2

Greetings SISTER Teams!

We are creeping towards October and soon we will be in the midst of the Holiday Season. Please don't forget about SISTER screening and enrollment. This is a very important study that could add to the treatment for stroke patients.

We appreciate each and everyone of you!

Ascension St. John Medical Center randomizes 2nd subject!
You ROCK!

Screening

Please make sure to check your inbox for an email from 9/18/24 regarding the change in the Screen Failure Log. This information is reviewed weekly to determine if the I/E criteria needs refined.

Pharmacy News!!!

A 6-minute video demonstration of a mock randomization with steps required to calculate & compound the SISTER study drug is now available in the WebDCU Training Center & in the SISTER toolbox in WebDCU. It's also accessible by using the QR code below.

This is not to replace the pharmacy training but to enhance it. Please share this with your pharmacy teams!

Reminders, Updates & Tips

- ◆ If your patient has not obtained a perfusion imaging due to it not being SOC at your site, please remember you can collect a research related imaging scan after consenting the subject as long as they meet I/E criteria to consent for the study.
- ◆ It's important to frequently review the SISTER process & to remind your team members. Use the tools available in the toolbox as the enrollments will not occur very often.
- ◆ F1572 - If you have investigators listed on your F1572, they must also be on your DoA in WebDCU. Please remember as you change your study team, you must change your F1572 and have it signed and dated prior to upload.
- ◆ Please remember to conduct the study visits within window. If they are out of window then a UA report for the protocol deviation will need to be completed.
- ◆ For those sites that now are live with RAPID AI, don't forget the app is customizable for alerts.
- ◆ The Con-Med eCRF must be updated at each visit.
- ◆ All translated short forms are available in the toolbox. If you consent a patient and they move to randomization, please let Rebeca or Pam know immediately so that a full translated ICF can be obtained. You only have 30 days from short form consent to have a full translated ICF obtained.
- ◆ Do not let your site team certificates expire. A team member with an expired certificate is not allowed to complete that assessment until a valid certificate has been approved.
- ◆ It's suggested that when your subject completed the study, you print the eCRFs from WebDCU to save in their study binder.
