Hospital at the University of Pennsylvania, Philadelphia PA- Nichole Gallatti & Steven Messe MD

Providence St. Vincent Medical Center, Portland OR- Bo Banks & Biggya Sapkota MD

North Shore University, Manhasset NY- Sabah Iqbal & Rohan Arora MD

Coordinators of the Month

Congratulations to Annemarie Crumlish from Buffalo General Medical and Ariana Hernandez from Memorial Hermann Houston!

**Annemarie
Crumlish**
Buffalo General

The Sleep SMART team has had nothing but great experiences working with Annemarie. She is always responsive, a great enroller, and always a pleasure to speak to. Her PI Dr. Kandel said the following of her "Annemarie has been the pillar of stroke research in Buffalo for more than ten years, and we are fortunate to have Annemarie. She has vast experience in research in neurosurgery and neurology. Annemarie is always good-humored, and a great team player and says yes to all the projects, including SleepSmart on the weekend! She is also a fantastic mentor to vascular neurology fellows, neurology residents, and medical students. Above all, always happy and available for research participants."

**Ariana
Hernandez**
Memorial Hermann
Houston

Ariana is the new PSC at Memorial Hermann and has hit the ground running! We have been incredibly impressed by her activity and are happy to have her join Sleep SMART. Her PI Dr. Sharrief told us "Ariana is incredibly hard-working and committed to the study. On several occasions, she has returned to work in the evenings (after 8 PM) to make sure the patient is wearing the device/mask and that the nurses are comfortable with the equipment. She is always willing to learn more and to help our team with other tasks. She does this all with a smile on her face."

Next webinar date

Tuesday, December 6th
at 1pm ET.

Nox T3 Scoring Hours

Scoring hours are 10am and 2pm
ET, 7 days per week.

Mask Guidance

As a reminder, there is no recall related to the ResMed magnet-containing masks including the N20 and F20. Nonetheless, to avoid future concerns about magnet-containing masks, and to simplify mask selection procedures, we have decided to phase out all magnet-containing masks at sites.

Please continue to use your current supply of ResMed masks (P10, N20, and F20), using the current mask selection protocols, and referencing the safety considerations in the mask MOPs. When you need replacements for the N20 and F20 masks, magnet-free masks will be provided. To summarize the replacement plan, this is what you will receive when you re-order specific masks:

Order this:

P10
N20
F20

Receive this:

P10 (this is already magnet-free)
ResMed Airfit N30i
Fisher & Paykel Evora full face mask

P10 Nasal pillows

Airfit N30i

Evora full face mask

Rock-themed Anthem contest

Modify your favorite 70's rock song with Sleep SMART lyrics or write your own for a chance to win \$100. Details in email sent by Kayla on 10/21. Submissions are due 12/9!

Office Hours

The next office hours will be held on December 13th at 1pm ET. The prime PI's will not be present, to facilitate ease of discussion about any and all questions or concerns among coordinators. Please come with questions for Joelle & Kayla

S10 supplies

- Please use up your S10 supplies and dispense your last S10 run in night device to an intervention subject when your S10 supplies are almost depleted
- KOEO does not have separate pathways to order S10 vs S11 supplies. Until that is available, when you order humidifier basins or tubing, please email sleepsmartechnsupport@noxhealth.com to specify whether you are ordering for the S10 or S11.
- Only order S10 supplies if you have a mismatch in the number of remaining S10 tubes and basins. If you have more basins than tubes, you'll need that many extra tubes. If you have more tubes than basins, you'll need that many additional basins. If you have the same number of S10 tubes and basins, you won't need to order any additional S10 tubes or basins.
- Fusion will send you a run-in night sticker. When you have dispensed your last S10 run-in night device, please place the sticker on a new S11 that you designate as the run-in night device.

Contact Information

Eligibility criteria questions: 9am to 8pm ET: sleepsmart@umich.edu

Fusionhealth (Nox T3, KOEO, aCPAP, Masks): 8am to 7pm ET M-F: 1-404-480-5149 ext 4006 or sleepsmarttechsupport@noxhealth.com. Please use email after hours.
