

The VERIFY STUDY

Validation of Early Prognostic Data for Recovery
Outcome after Stroke for Future, Higher Yield Trials

Newsletter April 2022 Issue 4

Study Updates

"The MRI surveys help us to work with your site radiology contact to build VERIFY MRI protocol and for phantom testing. Thanks to all who have already completed the MRI survey, we look forward to receiving all the surveys."

-Achala Vagal, MD, MS

- Please aim to have your study-specific trainings completed by the end of April 2022. For more [detailed information](#) about the trainings, please refer to the Virtual Training Launch PowerPoint slides. These slides are accessible in WebDCU under the "Toolbox" tab.

Action Items

MRI Surveys

- If haven't already done so, please send to Lisa Mundo at mundokl@ucmail.uc.edu.

Study Tips

- Strongly prefer that FM and ARAT are performed by PT/OT
- FM at VISIT 2 & 6 must be performed by the same person
- Neither TMS operator nor TMS assistant should do 90-Day FM or ARAT
- At least two people should be listed for TMS operator and TMS assistant in the DOA log

**** We strongly encourage at least 4 study members per site for VERIFY. This will help maintain appropriate study blinding. Please refer to the VERIFY Staff Roles PowerPoint slide for more details. This slide is accessible in WebDCU under the "Toolbox" tab****

Study Contacts

CIRB- Regulatory contacts:

Betsy Casillo	betsy.casillo@advarra.com	513.619.1679
Kalli Beasley	beasleki@ucmail.uc.edu	513.558.2968

CTA contacts:

Wren Hansen	hansonwm@ucmail.uc.edu	513.558.6566
Sasha Simms	simmssc@ucmail.uc.edu	513.558.3924

All Other VERIFY questions: Lisa Mundo mundokl@ucmail.uc.edu

****Virtual Investigator Meeting is on 04.25.2022 from 3pm - 6pm ET. All site staff involved in the study should be in attendance. Zoom Login details have been emailed to sites****
