FALLING BEHIND

Time to catch up!

Study Announcements

- **NEW-** **Protocol v2.0 pending CIRB approval**
  - This protocol will have ICF updates
  - NCC regulatory team will be assisting each site during this process!
  - Study wide training will occur on April 29th @4-5pm EST
    - Link provided in the Webinar section

- **Remember: SAFE score training demo-**
  - Available for viewing on the Feb PI/CRC webinar location on the VERIFY page on the StrokeNet Website**.**
  - Can also be viewed here: https://vimeo.com/manage/videos/919333695

- **ATTENTION:** **Virtual** **Investigator Meeting 2024**
  - Dates: June 4th 2PM EST to 5 PM EST
  - Who should attend? Site PI, PSC, TMS operators, ARAT/FM assessors, and any other team members who wish to attend.
  - A placeholder calendar invite has been sent out and the webinar calendar invite will be coming soon
  - Stay tuned for more details to come
  - ***Please note the in-person meeting has been canceled***

HAPPY Spring Y'ALL

To Our VERIFY Family!!

Pearls of WISDOM

Advice and Suggestions

Any screened patient who is <u>NOT</u> consentable does <u>NOT</u> need to be entered into the pre-screen failure log.

<u>Only patients who are:</u>

- <96 hours of onset at admission
- Alert and able to consent themselves
- No TMS & MRI contraindications

<u>Should be entered into the pre-screen failure log</u>

If bilateral facilitation was used during a TMS session, please note in the TMS comments section which stimulations were done during bilateral facilitation

For MEP- patients please note in the TMS comment section approximately how many different scalp positions were stimulated to indicate that coil repositioning was performed

Fugl-Meyer:

Q3-11 (Synergistic Movement):
- Score best performance
- Score items based on end position

Coordination/Speed Section:
- If unable to move arm, scores on Q31 (Tremor) & Q32 (Dysmetria) must be 2
  > Score <u>cannot</u> be 0 due to weakness
- Document & Justify

Score on Q11 (Forearm Pronation) = 2 Only when the following three things are true:
- Hand must reach opposite knee
- Score on Q9 (shoulder internal rotation & adduction) =2
- Score on Q10 (elbow extension) = 2

ARAT- Use the provided stopwatch:
- Record time to 1 decimal place (ex: 10.3 sec, NOT 10 sec or 10.34 sec)

✨🌸 Site Monthly Spotlight 🌸✨

March Achievements:

Top Enroller(s) :

University of Alabama Hospital

First Time Enroller(s):

UCSF Medical Center

Top Pre-Screener(s):

University of Utah Healthcare

VERIFY(ed) Extraordinary Staff:

Gina Gwiada from UCSF jumped into her role with enthusiasm and dedication as the new study coordinator for VERIFY at her site the beginning of this year.

She/team recently had their first enrollment, and due to her attention to detail and willingness to reach out to our radiology team it was a success!

Do you have an extraordinary team member that you want to be recognized? Let us know by emailing verifystudy@ucmail.uc.edu and nominate them for the next newsletter!
