

The VERIFY STUDY

Validation of Early Prognostic Data for Recovery
Outcome after Stroke for Future, Higher Yield Trials

Newsletter May 2022 Issue 5

We are on the home stretch of study start-up and appreciate all of your efforts to get our first patients enrolled by June!

-Pooja Khatri, MD, MSc

****Please aim to have all study trainings completed by end of May 2022.****

Study Updates

- All training links have been posted in the DCU campus site for VERIFY: <https://dcu.musc.edu/campus/>. Scroll to the bottom of the page until you find “VERIFY Project”.
- The Virtual Investigator Meeting recording is available to those who were unable to attend the meeting. Sites can access the recording by going to the DCU Training Campus website (see website above).
- The PowerPoint slides for the Virtual Investigator Meeting are accessible in WebDCU under the “Toolbox” tab.
- WebDCU has been updated to include the responsibility of “Administer SAFE Score”. Those who have this responsibility will need to upload their SAFE training certificate in the People Document section of WebDCU. Those that have approved DOAs will need to resubmit updated DOAs that include the responsibility of “Administer SAFE Score” assigned to designated study personnel.
- ****The study has been posted in clinicaltrials.gov. The NCT number is: NCT05338697****

****The first Study Coordinator Webinar is on 05.24.2022 12pm-1pm ET. All study coordinators involved in the study should be in attendance. Zoom login details will be emailed to sites****
